Daniel Koo, Account Manager
dk@happymunchfactory.com

Happy Munch Factory Inc. believe you shouldn't have to choose between snacks that taste amazing and snacks that are better for you. They are tired of the same old options – either bland “healthy” snacks or delicious treats packed with artificial flavours and preservatives. That's why they created snacks that bring together the best of both worlds – starting with that perfect crunch and smooth coating that makes every bite satisfying. They are not trying to be the next superfood or organic purist brand, they are just passionate about making confectionery snacks with incredible taste and texture, crafted with natural ingredients.
